CNC PRECISION MACHINES INTL. LLC

Machine Tool Sales & Service

El Paso, Texas | Cd. Juarez, Chihuahua, MX

EST. 2000

ABOUT CNC PRECISION

Your Trusted Partner in Machine Tool Solutions

With **over 25 years of experience** in machine tool sales and service, CNC Precision Machines International has been the go-to source for manufacturers across the U.S.–Mexico border region. Founded in 2000 and headquartered in El Paso, Texas, we specialize in serving the **maquiladora industry** and precision manufacturing operations throughout the Southwest United States and Northern Mexico.

Our **bilingual team** provides seamless support for cross-border operations, offering expert consultation, installation, training, and after-sale service. We represent a carefully curated portfolio of world-class machine tool manufacturers — from Swiss-type lathes and 5-axis machining centers to EDM, laser systems, and 3D metal printing.

Whether you need a single machine or a complete production line, CNC Precision delivers **the right equipment, the right service, and the right price**. We are proud to offer **financing options** and accept all major credit cards to make your capital equipment investment as smooth as possible.

Our coverage area includes Texas, New Mexico, Arizona, and the Mexican states of Chihuahua, Sonora, Coahuila, Durango, and Nuevo Leon.

Phone: **(915) 778-0108** Email: **rc@cncprecision.com** Web: **www.cncprecision.com**

LATHES

CNC & Swiss-Type Turning Solutions

HANWHA

Swiss-Type CNC Lathes

Ultra-precision Swiss-type automatic lathes for high-volume, tight-tolerance turning. Ideal for medical, aerospace, and electronics components.

REPUBLIC-LAGUN

CNC Lathes

Rugged, versatile CNC turning centers built for heavy-duty production environments with exceptional rigidity and repeatability.

SHARP

Precision Lathes

Full range of precision engine lathes and CNC turning centers, from compact bench models to large-capacity floor units.

PROTOTRAK

CNC Lathes

Industry-leading CNC control for 2-axis turning. Intuitive conversational programming for quick setup on short-run and prototype work.

TAKAMAZ

CNC Precision Lathes

High-speed, high-precision CNC lathes from Japan. Compact footprint with automation-ready designs for lights-out manufacturing.

MILLING MACHINES

Vertical, Horizontal & CNC Machining Centers

SHARP MACHINERY

Vertical & Horizontal Mills

Full range of knee mills, bed mills, and vertical machining centers. Heavy-duty construction for precision metalcutting in job shops and production environments.

CHEVALIER

CNC Machining Centers

High-performance vertical and horizontal machining centers with advanced spindle technology, rapid traverses, and precision linear guideways.

PROTOTRAK

CNC Mills

Conversational CNC milling with ProtoTRAK controls. Perfect for short-run production, prototyping, and toolroom work with minimal programming time.

GRINDERS

Surface, Cylindrical & CNC Grinding

SUPERTEC

Cylindrical Grinders

Universal, plain, and CNC cylindrical grinders for precision OD/ID grinding with exceptional surface finish capability.

CHEVALIER

Surface & CNC Grinders

Automatic and CNC surface grinders, profile grinders, and double-column designs for flat, contour, and creep-feed applications.

MITSUI

Precision Surface Grinders

High-accuracy hand-feed and automatic surface grinders. Japanese-built precision for toolroom and production grinding.

WELDON

CNC Cylindrical Grinders

Precision CNC cylindrical grinding machines for OD, ID, and plunge grinding of shafts, pins, and cylindrical components.

EDM MACHINES

Wire, Sinker & Hole Drilling EDM

SODICK

CNC Wire EDM

Linear motor-driven wire EDM machines with exceptional accuracy, speed, and surface finish. Industry-leading Smart Pulse technology.

SODICK

CNC Sinker EDM

High-precision die-sinker EDMs with linear motor drives for complex cavity and mold work with mirror-finish capability.

SODICK

Hole Drilling EDM

Fast-hole drilling EDMs for cooling holes, start holes, and precision small-hole applications in hardened materials.

GROMAX

ZNC Sinker EDM

Affordable and reliable ZNC die-sinker EDMs for general-purpose cavity sinking and mold/die applications.

SYSTEM 3R

EDM Tooling

Precision reference and clamping systems for EDM. Modular tooling for electrode holders, pallets, and workholding.

EROWA

EDM Tooling

Swiss-engineered tooling and automation systems for EDM. Electrode changers, palletization, and flexible manufacturing solutions.

3D METAL PRINTER

Additive Manufacturing with Integrated Machining

SODICK

OPM Series — Metal 3D Printer with Machining Center

Revolutionary hybrid manufacturing combining metal laser sintering with high-speed milling in a single machine. Build complex geometries with conformal cooling channels, then finish-machine to final tolerances — all in one setup. Ideal for injection mold inserts, aerospace components, and medical implants.

TOOLS & WORKHOLDING

Cutting Tools, Chucks & Workholding Systems

ATS

Quick-Change Tooling

Quick-change tool post systems for fast changeover on lathes.

BURNERD

Precision Chucks

High-quality chucks and collet systems for turning applications.

GROMAX

Machine Accessories

Vises, rotary tables, and machine tool accessories.

HIGH QUALITY TOOLS

Cutting Tools

Premium end mills, drills, and carbide cutting tools.

KENNAMETAL

Tooling Solutions

World-class cutting tools, toolholders, and wear solutions.

KURT

Workholding

Industry-standard precision vises and workholding systems.

DRILLING

Sharp Radial Drill

Heavy-duty radial arm drills for large-workpiece drilling, boring, tapping, and reaming operations.

Clausing

Precision drill presses and production drilling machines with variable speed and power feed options.

HEAT TREAT FURNACES

Cress Heat Treat Furnaces

Electric heat treat furnaces and ovens for hardening, tempering, annealing, and stress relieving. Benchtop to floor models.

Lucifer Furnaces Inc.

Industrial furnaces and ovens for heat treating, brazing, and sintering. Custom configurations available.

SAWS

DoAll Production Saws

Band saws, circular saws, and production cutting systems. From manual to fully automatic CNC models for high-volume cutting.

Wellsaw Band Saws

Horizontal band saws built in the USA. Rugged construction for reliable everyday cutting in job shops and production floors.

WELDERS

LaserStar Welders & Marker

Precision laser welding and marking systems for mold repair, jewelry, medical devices, and fine metalwork.

Nova Tech Micro TIG Welding

Micro TIG welding systems for precision repair and joining of small components, thin materials, and delicate assemblies.

LASER, PLASMA & ROUTERS

Fast Cut CNC Plasma

CNC plasma cutting tables for steel, stainless, and aluminum sheet and plate. Production-ready with automated controls.

Kern Lasers

High-performance CO2 and fiber laser cutting and engraving systems for metals, plastics, wood, and composites.

Laguna Multi-Access

CNC routers and multi-axis machining for wood, composites, plastics, and soft metals. Versatile production solutions.

STORAGE SOLUTIONS

International Lista

Premium modular drawer storage, workstations, and shelving systems for industrial tool and parts organization.

Sarraile Removable Mold Storage Racks

Heavy-duty mold storage and die racks with removable shelves. Engineered for safe handling of large, heavy tooling.

SOFTWARE

ProtoTRAK 3-Axis CNC Control

Conversational CNC programming — no G-code required. Powerful yet easy-to-learn control for milling and turning.

ESPRIT / DP Technology

Full-spectrum CAM software for multi-axis milling, turning, wire EDM, and multi-tasking machine programming.

FeatureCAM

Feature-based CAM software with automatic toolpath generation. Supports milling, turning, and wire EDM programming.

ROTARY TRANSFER MACHINES

WINEMA Transfer Machines

High-production rotary transfer machines for complex, multi-operation machining in a single cycle. Ideal for automotive, medical, and high-volume precision components requiring simultaneous multi-station processing.

MULTI-AXES MACHINING CENTERS

Hanwha Multi-Axis

Multi-axis Swiss-type machines for complex geometries. Simultaneous machining with live tooling and sub-spindle capabilities.

Chevalier 5-Axis

5-axis vertical machining centers for complex contoured surfaces, aerospace parts, and precision mold/die components.

WATER JETS

OMAX Corporation

Precision abrasive waterjet cutting systems. Cut virtually any material — metals, stone, glass, composites — with no heat-affected zone. Available from tabletop to large-format models with multi-axis cutting heads.

QUALITY CONTROL & METROLOGY

Fowler Precision

Precision measuring instruments — micrometers, calipers, indicators, gages, and inspection tools for the machine shop.

FARO

3D measurement, imaging, and realization technology. Portable CMMs, laser trackers, and 3D scanners for inspection and reverse engineering.

BAR CHARGERS & ACCESSORIES

EDGE Technologies

Bar feeders, bar loaders, and magazine bar feeds for CNC lathes. Reliable bar feeding for unattended and lights-out operation.

LNS Bar Feed Systems

World-leading bar feeding and chip management systems. Hydrodynamic and magazine-style bar feeds for all lathe types.

Trusty-Cook Linears

Linear bar feeders for CNC lathes. Cost-effective, reliable bar feeding solutions for short to long bar stock.

REPAIR & REPLACEMENT OF CIRCUIT BOARDS

Fanuc USA

Factory-authorized repair and replacement of Fanuc CNC controls, drives, motors, and circuit boards. Quick turnaround to minimize downtime.

Yaskawa Electric America

Repair and replacement of Yaskawa servo drives, spindle drives, and control boards. OEM-quality service and genuine parts.

FULL SERVICE & SUPPORT

CNC Precision provides complete machine tool support including installation, training, preventive maintenance, emergency repair, retrofitting, and parts sourcing. Our bilingual technicians serve both sides of the border.

GET IN TOUCH

UNITED STATES OFFICE

- CNC Precision Machines Intl. LLC
- El Paso, Texas
- Phone: (915) 778-0108
- Fax: (915) 778-0145
- Email: rc@cncprecision.com

MEXICO OFFICE

- Cd. Juarez, Chihuahua, MX
- Serving maquiladoras throughout
- Northern Mexico
- Bilingual sales & service team

FINANCING AVAILABLE

We offer flexible financing options for your capital equipment purchases. Let us help you find the right solution for your budget.

VISA | MASTERCARD | AMEX
